About Me

Fresh graduate of Universitas Muhammadiyah Malang, Informatics program (2025), with a strong interest in Mobile and Web Development. Experienced as a Mobile Development Cohort in the Bangkit Academy 2023 program and accustomed to working on end-to-end application development projects, from UI design to backend integration.

Education

Universitas Muhammadiyah Malang (2021 - 2025) - Bachelor of Computer Science

- **IPK**: 3.79 / 4.00

  Thesis: **Rekayasa Ulang Proses Pengembalian Produk Pada CV. Berkah Menggunakan Notasi BPMN**

Work Experience

Web Developer Intern — **PT. Telkom Indonesia**   **(July 2024 - August 2024)**

Collaborated with the IT team to develop a website called Arnet Dashboard. The Arnet Dashboard was designed to manage documents through a local intranet and ensure easy access for Telkom employees in the Malang area.

Projects

Zeee-Web   **(July 2025 - August 2025)**

- Build a responsive web portal with authentication, dashboard, and integrated scraping module (ZeeScraper) using Laravel 12.x and PHP 8.2.
- Designed a modern UI with Blade, Tailwind CSS, and Vite, and integrated MySQL/SQLite for flexible deployment.

Tech Stack: Laravel, PHP, Blade, Tailwind CSS, Vite, MySQL

Arnet Dashboard   **(July 2024 - August 2024)**

- Developed UI and CRUD logic for a local web application without API integration.
- Processed Excel data into interactive charts for analysis purposes.
- Integrated the system with a local database and performed functional testing.

Tech Stack: Laravel, PHP, Blade, Bootstrap, MySQL

Minatku Project (Mobile Development) - Capstone Bangkit   **(November 2023 - Desember 2023)**

- Collaborative capstone project developed as part of Bangkit Academy 2023.
- Designed user interface (UI/UX) using Figma and converted designs into mobile app components.
- Integrated APIs and databases in collaboration with the backend team to ensure seamless functionality.

Tech Stack: Kotlin, Retrofit, Gson, Glide, Picasso
